Engineered for performance

○ Memaplex[™] advanced polymer

created from an exclusive composition of the most sophisticated polyolefins and rubber additives, expertly blended for unequalled durability. Ultra-low maintenance material is chemical and water resistant, non-corrosive, non-scratch and self coloured so no repainting, rusting, flaking or corrosion.

0

Self coloured and UV stabilised for continued high visibility and long lasting aesthetics with no repainting.

Countersunk Bolts

Galvanised Steel

Stainless Steel 316 Standard

Stainless Steel 316 Countersunk

Space optimisation and zero route obstruction when gate is open, enabled by telescopic slide operation.

Stay-open function Enables fluid traffic flow when route access is needed for a prolonged period of time.

Environmentally O **friendly** and 100% recyclable. **Ergonomic** design with no sharp edges.

Q

0

Cinc nickel, electrophoretic coating on base plates as standard, provides advanced protection against corrosion damage.

Twin-gate option O allows the gate to be installed in pairs to provide a maximum opening of 4000mm.
